6. Maintenance

- Alan asked that it be minuted that he is very unhappy with the process of agreement of the paint to be used on the exterior of the hall. He would have liked a step for review by correspondence or in a meeting by trustees of the specification as he had missed the previous meeting where anyway discussion was very brief. He is concerned that an oil-based masonry paint like the Leyland paint being used – he has inspected the can used – may not be porous enough and could cause problems in future. We will only know within a year or two. As a civil engineer he has experience of material specification. There should have been more discussion on this.

- We discussed the village pond weed issue; Capel PCC will generously fund half if MVDC or someone else funds other half. MVDC considering. Contractor selected.
- Interior coloured strip lights – wow
- Paul to remind solar want anti-bird (he's got this free already as an extra)
- Tree delayed slightly, next week
- A heron rescue was described
- Paul has bought a new laminator, A3, it has a built in guillotine along the top but cannot chop many at a time – no more than 5 sheets.
